HIGH CHAIR MONITORING SYSTEM

159627608

**THE FIRST**  
CHILD  
HIGH CHAIR  
MONITORING  
SYSTEM

WE CARE  
WE CONNECT

**bluebeep** 

**BLUEBEEP HC IS A HIGH CHAIR MONITORING SYSTEM THAT  
ALLOWS YOU TO TRACK YOUR CHILD AND ENSURE:**

- **He is safely contained within the confines of the high chair**
  - **He is safely seated**
    - **The chair is not experiencing any unsafe movements, tilting or shaking**

**Bluebeep HC** monitoring system is the simplest and most efficient way to monitor your child in a high chair to ensure his safety.

**ELECTRONIC  
ONLY  
NO MOVING  
PARTS**

The system utilizes electronic sensors to monitor your child's motion and ensure the high chair itself is stable and balanced.

**HIGH DATA  
INTEGRITY**

- The system generates multiple sensors readings to ensure consistency and accuracy.
- Safety level target :  $10^{-6}$ /year
- Engineering in reference to ISO 26262

**SIMPLE  
INSTALLATION**

The device fits easily underneath the high chair seat. No tools or assembly required.

**EMF RADIATION**

Bluebeep HC EMF exposure is extremely low, thanks to the BLE protocol. Radio is off most of the time and each data request lasts only a few milliseconds.

**CONTINUOUS  
MONITORING**

Electronic sensors measure and track your child's movements to ensure he is safe while seated in the high chair.

**FEATURES**

- Fits 99 % of child high chair models
  - AAA rechargeable batteries
  - 100% electronic sensors for maximum reliability
  - Ability to integrate with your smart phone via Bluebeep app (optional)
  - Audible alarms that are emitted directly from the device
  - OEM/ODM and After-Market version
-

or shaking*

*Child left seated  
for extended time*

---

*Smart icons make the app user-friendly*

# Bluebeep HC

FOR SAFETY AND PEACE OF MIND

## MONITOR YOUR CHILD'S SAFETY DIRECTLY FROM YOUR SMARTPHONE

BlueBeep HC allows you can multi-task with peace of mind knowing that you'll be alerted as soon as your child attempts to climb out of his high chair. Should your child become distressed, get unbuckled or manage to tilt dangerously in his high chair, BlueBeep HC will immediately alert you via a loud warning tone.
